Deskpro Release 2023.0.2

2023-07-17 - James Godwin - Comments (0) - Release Announcements

We have released version 2023.0.2 of Deskpro. This post summarizes the updates we have made to our legacy product.

Improvements

 For customers using DB Blobs we increased security by requiring inline blobs to provide auth.

 Improved the dangling-blobs command to fix error and add more places where blobs are referred to (SC 50825).

 Improved handling of email templates, when upgrading from the legacy email templates feature (SC 115479).

For details of the previous Deskpro release, see Deskpro 2023.0.0
