Ability to view each ticket that used a particular snippet in "snippet reporting" Finished

Jason •

• [اسم المنتدى](#): # Feature Request

Would it be possible to add links to the snippet reporting feature so we can easily see the tickets where the snippets were used

The following report should allow you to do this :)  
DISPLAY TABLE SELECT  
OBJ\_LANG(ticket\_object\_use\_logs.snippet.category.id, 'text\_snippet\_categories') AS 'Snippet Category', OBJ\_LANG(ticket\_object\_use\_logs.snippet.id, 'text\_snippets') AS 'Snippet', COUNT() AS 'Uses' FROM ticket\_object\_use\_logs WHERE ticket\_object\_use\_logs.snippet.id <> NULL AND ticket\_object\_use\_logs.date\_created = %1:DATE\_GROUP% SPLIT BY ticket\_object\_use\_logs.snippet.id GROUP BY ticket\_object\_use\_logs.ticket.id ORDER BY COUNT() DESC
