## **Adobe Integration Report**

Hello,

Is there a way to sign an Adobe document that needs a signature w/in Deskpro w/out downloading the document first? This would be the same premise of using DocuSign for signatures.

Thanks!

As a hard core deskpro user I think it is a good idea to make the signing procedure to the part of the communication thread somehow. I think some additional 3rd party development could be a solution. I'm ...investigating it
