Allow true search of feedback categories at feedback page Finished

Ian Clayton •

Feature Request# **اسم المنتدى:** •

The feedback home page includes a tabbed prompt for 'category' is in fact feedback 'type'. I have a need to allow my users to view the actual categories as setup in the admin panel - which in my case each represent a product offered. Can we add this feature please and at thevery least reword the tabbed prompt so it says 'type' and is not misleading
