Colour Code Agents Collecting Feedback

Marc Chamberlain •

Feature Request# [اسم المنتدى](#) •

Looking to see if we can possibly get a feature where each agent and/or status has a colour that would highlight the whole ticket - so for example - either view you view your tickets each status you see would be like red - awaiting agent - yellow - awaiting user and so on, just so its .easier on the eyes and easier to view when looking at the hundred of tickets in your views
