Feature Request# **اسم المنتدى:** •

Any change for an integration of the 3CX phone systems? They already offer integrations für Zendesk, Freshdesk and Salesforce to create tickets für Answered/Unanswered calls (inbound /and outbound). For example: <https://www.3cx.com/docs/zendesk-crm-integration>

This is a big one for me, our company has just moved to 3CX but also wanting to get away .from Zendesk. If this happens, choosing Deskpro will be a no brainer
