

Managing your Tickets

[Getting Started](#) - [تعليقات \(.\)](#) - David Anjonrin-Ohu - 2023-09-12

.Deskpro aims to make it as quick and easy as possible for you to start solving your customers' issues

.Tickets in Deskpro reveal everything you need to truly understand a customer issue - all in one place

Convenient automation features and ticket actions also make managing and replying to tickets as easy as possible.

!Learn how to view, manage, and reply to your tickets below

The screenshot displays the Deskpro interface with several key components highlighted by numbered boxes:

- Box 1:** The 'New Starter in Admin' button, which is used to view and edit the ticket title and ID number.
- Box 2:** The 'Awaiting Agent' status dropdown menu, which allows users to add labels to the ticket.
- Box 3:** The 'Agent' dropdown menu, which allows users to select the agent responsible for the ticket.
- Box 4:** The 'USER & CC'S' section, which displays the user's details and the ticket's history.
- Box 5:** The 'Messages' section, which shows the email and agent notes related to the ticket.
- Box 6:** The 'Messages' section, which shows the email and agent notes related to the ticket.
- Box 7:** The 'Messages' section, which shows the email and agent notes related to the ticket.
- Box 8:** The 'Messages' section, which shows the email and agent notes related to the ticket.

Red: View the ticket title and edit by clicking on it, view the ticket's ID number, add labels to the ticket . 1

Orange: Switch from the default view of [ticket properties](#) to one of our ticket actions and apps .2

Yellow: Set the ticket's [status](#) and urgency, change the [assigned agent](#) and agent team, and add followers to the ticket .3

Green: Change the user who is set as the ticket owner and add CCs .4

The user is the customer you are communicating with; any people who are added CCs will also receive messages you send to them .1

Blue: View and edit the [ticket's fields](#) .5

The fields that appear here are controlled in admin [like this](#) .1

Black: [Ticket actions](#) give you more controls to interact with your ticket. Press the More button to see a full list .6

.Many ticket actions will persist in the area marked 2 once in use for easy access .1

Grey: Switch between viewing the ticket messages and the [ticket's history](#) (and the ticket summary if ((one has been added via the ticket actions menu (7 .7

The arrow icon next to "Messages" will let you switch the display order of the ticket's messages. Choose whether you'd like the most recent message to appear at the top or bottom of your screen. .1

Pink: [The reply box](#) lets you send messages to your user through any channels you have set up or add a note to the ticket for your fellow agents to read .8

.The "TT" button in the toolbar will give you access to more formatting options .1

.Switch between reply box tabs to change which channel you would like to use .2
