Admin & Agent Training

Consultancy & Services - (٠) تعليقات - Benedict Sycamore - 2023-08-01

If you need to quickly get your agents up-to-speed on how to use Deskpro, or if you need in-depth training on how to maximise the power of your helpdesk - we provide training at an additional cost.

We offer a range of impactful training services; from intensive webinars to multi-day onsite training.

All our training is customized to meet your specific objectives, so we only spend time discussing the features that matter to you. Our training includes:

One-hour Webinar - $250
A product familiarisation webinar, designed to ensure your agents are ready to hit the ground running with Deskpro.

Three-hour Webinar - $600
A detailed and in-depth training webinar on agent and admin interfaces, including time to discuss any questions you might have.

On-site Training
We take you through everything you want to know, face-to-face. Most popular amongst organizations with larger teams.

To find out more about the training we offer and associated costs, get in touch.
