## ?Can I pay you to add a feature to Deskpro

[Payment & Renewals](#) - [تعليقات \(0\)](#) - Ben Henley - 2023-08-10

Yes, we will consider custom development work to tailor Deskpro to your needs. This can be anything from adding a widget to tweak the agent interface, developing integration with another piece of software you use, to sponsoring faster development of a feature that is already on our roadmap

.We will provide you with a fixed quote based on the scope of work

.Learn more on our [Consultancy](#) page or reach out to [sales@deskpro.com](mailto:sales@deskpro.com) for more details
