

Change the name of the Contact Us tab

Configuration - (.) تعليقات - Thomas Rolfe - 2023-09-13

You can customize the text on the Help Center **Contact Us** button where users submit tickets. For instance, if you'd like to rename it from "Contact Us" to "Submit Tickets"

Go to **Admin > Configuration > Phrase Translation**. Click the Help Center UI tab and search for `helpcenter.general.nav_contact`

.Click the highlighted row and edit the text for your language

.Click **Save** at the bottom of the page

.Now when you go to the Help Center, you will see your custom button name
