You can customize the text on the Help Center **Contact Us** button where users submit tickets. For instance, if you'd like to rename it from "Contact Us" to "Submit ."Tickets

Go to **Admin > Configuration > Phrase Translation**. Click the Help Center UI tab and search for helpcenter.general.nav contact

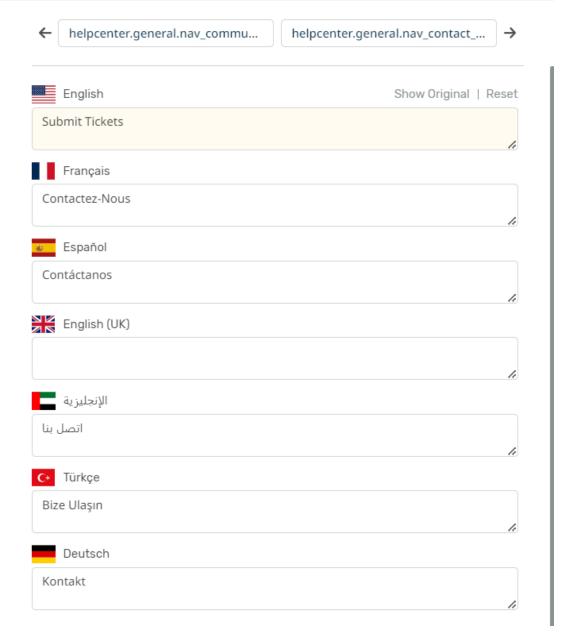

.Click the highlighted row and edit the text for your language

.Click Save at the bottom of the page

Edit: helpcenter.general.nav_contact

. Now when you go to the Help Center, you will see your custom button name
