

?How can I remove links to Deskpro from email notifications

Admin - (٠) تعليقات - Chynah Hayde - 2023-08-24

By default, if you have the Deskpro Help Center enabled, User email notifications include .links to allow the User to view the ticket on the Help Center

If you disable the Help Center, the links are not shown. However, you may wish to leave the .Help Center enabled but not include links in emails to users

:To remove those links from email notifications

Go to **Admin > Channels > Email > Templates** .1

Under **Template**, click the **User Email Templates > Ticket Emails** .2

."Open the template "New Ticket Auto-Response .3

:Delete the code .4

```
br /><br />>
```

```
{{helpcenter.emails.ticket_access_ticket_online}}  
<a href="{{ ticket.link }}">{{ ticket.link }}</a>
```

"Click "Save Template .5

:You will also need to repeat this for the templates .6

"New Ticket by Agent" •

"New Agent Reply" •

"User Reply Auto-Response" •

:You should also go to the footer section of the template and delete .7

```
if app.isPortalEnabled() %}<a href="{{ deskpro_url }}">{{ %}  
{% deskpro_url }}</a>{% endif
```
