

How can I show text on the Help Center only to a certain usergroup

Help Center - (.) تعليقات - Hannah Scott - 2023-09-13

:Question

How do I edit a portal template to show some text only to users who belong to a particular usergroup

:Answer

First, find the ID number of the Usergroup you wish to show the text to in **Admin > CRM > Usergroups**

:Now add this to the Help Center template where you want the message to appear

```
{% (if app.user.isMemberOfUsergroup(N %)
```

Text to display

```
{% endif %}
```

replacing N with the ID of the usergroup, and putting the message you want in place of
."Text to display

.See the admin guide for [Editing Help Center Templates](#)
