

?How do I create a welcome message for my Help Center

Help Center - (٠) تعليقات - Matthew Watt - 2023-08-17

You can add a Welcome Message to your Help Center by going to **Admin > Help Center > Help Center Design**. Under **Theme Options** you will be able to input a Welcome Message .title and Welcome Message content

Make sure to press **Save** at the bottom of the screen to push any changes live on your Help .Center

For more information on editing your Help Center, check out our Guide: [Help Center Preview and Publishing](#)
