

How do I nominate users to manage an organization's tickets

Agent - (.) تعليقات - Eloise Rea - 2023-08-01

The organization managers feature allows specific people to oversee all of the ticket happenings for their organization. Normally, a person can only see the tickets that they've created or are a participant in. However, an organization manager can see any ticket associated with their organization and even automatically be added as a participant to any .new tickets for their organization

Nominating Organization Managers

:A person can be set as an organization manager in two places in the agent interface

.On a person's CRM profile, next to their position field •

On the organization page, in the members list. Organization managers have an icon •
.next to their name. Clicking this icon will toggle manager status on and off

Manager

The screenshot displays the Energy.io help center interface. At the top, there's a header with the organization name 'Energy.io' and several filters: '1', 'High Priority', 'Partnership', and 'VIP'. Below the header, there are navigation icons and a 'Tickets +' section. The main area is divided into two columns. The left column contains a 'Summary +' section, 'Contact Information +' (showing a phone number +44 07969 236608), 'Properties' (showing date created Oct 14, 2021 and usergroup), 'Hierarchy' (showing parent 'City Air Inc.' and children), 'Associated Domains +' (showing energy.com and energy.io), and 'Members +' (listing Agatha Bardle, Alice Barrel (Manager), Audrey Merivale, Doris Weather..., Heather Brown, Hilda Adair, Lily Jones, and Spencer Hastin...). The right column shows a list of tickets under 'Open (28)' and 'Resolved (36)'. A red arrow points to a ticket with ID 275, 'Call from +447969236608', which is assigned to Hilda Adair (h.a.adair@example.com).

From the Organization Manager's perspective

An organization manager can view and search all of their organization's tickets in the help .center. They will have a new option when clicking on their user profile icon
