Go to Admin > Channels > Email > Outgoing Email/Incoming .1 Email

Locate the email in question, using the Filter to limit certain criteria if .2 .needed

:Once you have found the email, click on the ticket area .3

After clicking on the ticket area, a sidebar will open. From there, you .4 can click on **Log**, and you should now see the **Process Log** (underneath :the Raw Source), and the option to download the Log
