I'm having a trouble with users being unable to add attachments to tickets

Deskpro Legacy - (٠) تعليقات - Ben Henley - 2023-09-11

There are a number of admin settings which can prevent some attachments working.

1. In **Setup > Settings**, the **User Attachments** settings will define what file sizes and extensions the user can submit. Check the size and type of file they are submitting is allowed.

2. If the control to add attachments is not showing up at the bottom of the **Contact Us** form on your portal:

Attachments
Maximum file size: 5.00 MB
Upload a file

Submit
make sure that the **Attachments** field is added to the form layout in **Tickets > Departments** under the **Layout** tab. Drag the blue Attachments field onto the user form, and check its settings with the gear icon.

3. There may be a problem with how your Deskpro On-Premise installation is storing files. Go to **Server > File Uploads** to review the configuration and test a file upload.
