In the incoming email log I'm getting "rejected (from_gateway_address)" errors. What do these mean

:Answer

These errors happen when an email is sent to one of your ticket accounts from another ticket account. For example, you accept tickets at your info@ and help@ accounts, and an .@email was sent from info@ to help

.To avoid starting an infinite email loop, Deskpro will reject the email

.Note that this also applies even if one of the accounts is configured as an Outgoing Account
