

I'm not receiving notifications when I create a ticket

Agent - (.) تعليقات - Lara Proud - 2023-06-08

The reason you aren't receiving email or browser notifications when you create a ticket, but you do receive them when other helpdesk actions occur is that by default notifications for .your events are disabled

You can enable them and receive email notifications for your events in the helpdesk. Go to **Agent Settings > Preferences > Notifications**, and under the **My Events** heading, .toggle the switch for the notifications you want to receive for your actions in the helpdesk

Preferences

Profile Security Preferences Notifications

Desktop Notifications
You must allow notifications from this domain, in the browser itself.
[Generate Test Notification](#)

Tickets Instant Messenger Tasks Help Center CRM My Account

My Events	Email	Alert
All My Actions	<input type="checkbox"/>	<input type="checkbox"/>
I Forward Email to Helpdesk	<input type="checkbox"/>	<input type="checkbox"/>

You can choose which type of notifications you receive Email, Alerts, or both for your .events

:The options are

All My Actions: This will send notifications based on any of your actions in the • helpdesk

I Forward Email to Helpdesk: This will send notifications when you forward emails • to the helpdesk
