

Added Hijri calendar (Arabic) for custom date fields (5.5

Product - (.) تعليقات - Lauren Cumming - 2017-03-13

You can now choose between the option to use a Gregorian or Arabic calendar for custom .date fields

The screenshot shows a user interface for configuring a widget. At the top, there are fields for 'Agent' (John Doe), 'Team' (None), and 'Followers' (Broderick Mori). Below these are 'Labels' (bartell inc, bayer-o'kon, flatley-bednar, hahn ltd, kessler) and 'Language' (French). A 'New Calendar' field is present. A modal dialog is open, displaying a Hijri calendar for the month of Jumada al-Akhir, 1438. The calendar grid shows days from 1 to 28, with the 11th day highlighted. The dialog has 'إغلاق' (Close) and 'مسح' (Clear) buttons at the bottom. The background interface has 'Save' and 'Cancel' buttons at the bottom right.
