## Deskpro 2018.1.3 Release

[Deskpro Releases](#) - (0) [تعليقات](#) - Colin Dunn - 2018-06-14

We're delighted to announce the release of Deskpro 2018.1.3

:Deskpro 2018.1.3 includes the updates, improvements, and bug fixes listed below

### :General fixes and improvements

- DP-1862 Fix default values for custom fields in new ticket form if invalid data provided ●
- DP-1845 Zendesk importer app stuck with error "missing parameters: 'start time" ●
- DP-1840 Improvements and fixes to a legacy feature of embedding the entire helpdesk in a frame ●
- DP-1823 Improvements to agent interface loading performance by improving snippets loading ●
- DP-1820 Single department hides field on new ticket agent, but causes validation error asking to select department ●
- DP-1809 cURL error 60: SSL certificate error causing issues when attempting updates and other commands ●
- DP-1804 Error when setting Default email account under Admin > Setup > Settings ●
- DP-1790 Trailing slashes in URLs suddenly have become sensitive and cause issues loading pages ●
- DP-1788 Order by "date of last reply" label missing in drop down menu ●
- DP-1785 <pre> HTML tag in ticket responses (usually used for code blocks) not rendering properly in emails ●
- DP-1600 API v2: Remove any hard coded API result limitations when exporting a dataset sorted by ID, to allow for easier ticket exports/crm ●
- DP-1551 Widget override code improved to fix a bug with pre-setting the department ID ●
- DP-1498 @mentions dropdown not functioning directly after following an /agent/go link ●
- DP-1462 [Snippets V2](#): Mass actions to change snippet properties function not responding fully ●
- DP-1424 Adding attachments through to a ticket when submitting through the chat widget causes a glitch ●
- DP-1397 Further improvements and expansion to pre-upgrade system checks of database integrity (Foreign Keys) ●
- DP-1362 Standard routine maintenance to update the php framework/libraries ●
- DP-1354 Agent permissions when "Can use Public" now limit agents to read-only permissions unless further edit permissions are added ●
- (DP-1342 Improvements to the daily cleanups to include checks of database integrity (foreign keys) ●
- DP-1114 Active Directory and LDAP app now synchronizes over profile pictures ●
- DP-859 Emojis in a trigger action text editor would corrupt the overall trigger, text would appear blank ●
- DP-730 Improvements when importing emails with different types of formatting ●
- DP-185 If all chat departments were removed, this would cause certain glitches throughout the admin interface. Checks in place to prevent this ●
- DP-179 Fix to IP whitelisting email behaviour to prevent accidental flooding of validation email ●
- DP-170 Improvements to text editor within a ticket to better handle pasting in code block styled text ●
- DP-147 Option added to LDAP/AD SSO app to disable certificate validation, so internal or self signed certificates can be used ●

### :Fixes and improvements to [V2 Reports](#)

- DP-1859 Reports v2: Some reports in the Stat builder are not able to load and show a blue loading circle ●
- DP-1857 Reports v2: Overly large spacing between the different styles of output in a report compressed ●
- DP-1856 Reports v2: GUI improvement to the CSV export icon, this has been made more prominent ●
- DP-1855 Reports v2: Remove default "support" label selection when adding widget, and display all widgets ●

- DP-1854 Reports v2: Improvent/Feature: Add dashboard auto-refresh feature ●
- DP-1853 Reports v2: Billing statistics and insights now included ●
- DP-1852 Reports v2: You now have the option to delete custom stats ●
- DP-1851 Reports v2: New icon to directly export stat results ●
- DP-1842 Reports v2: Reports using "value from report" are broken ●
- DP-1821 Reports v2: Sporadically a widgets on default dashboards do not complete loading ●
- DP-1813 Reports v2: Further improvements to admin control over agent edit/view permissions to a dashboard ●
- DP-1733 Reports v2: Improvements to scheduled reports not working, and GUI issues of configs not saving ●
- DP-1717 Reports v2: By default stats will output 50 results now ●
- DP-1651 Reports v2: Lines in the DPQL builder would not wrap, and previously ran off the side of the page ●
