

Deskpro 2018.2 Release

Release Announcements - تعليقات (.) - Colin Dunn - 2018-07-18

We're delighted to announce the release of Deskpro 2018.2

:Deskpro 2018.2 includes the updates, improvements, and bug fixes listed below

:New Reports

- DP-2054 Error displayed when trying to add report widgets via a limited-
 - .permission agent account
- DP-2053 Double clicking on a custom dashboard causes the report interface to
 - .bug/blank out, and you must refresh/re-click other tabs
- DP-2049 Sporadically when changing the variable field type in the stat builder, the
 - .change is not retained and the builder bugs out
- DP-2047 Multiple issues with the stat "Avg time till first response". Hierarchy for
 - sub-departments not shown properly. Column headings were missing. Values were .not represented as rounded decimal values, but fractions
- DP-2040 When creating new custom report dashboard, interface will result in an
 - "error when checking "All Agents View"
- DP-2039 Not possible to create or save additional labels for built-in reports
 -
- DP-2032 Could not save a report in RAW DPQL editor when there was both a Order
 - By and Report By
- DP-2031 Stat builder seems to bug out when saving a custom stat with a REGEXP
 - .query
- DP-2030 Using any custom field alias does not work unless referencing the tickets
 - .table
- DP-2029 Cloning a stat, modifying it then saving it will cause the page to hang
 -
- (DP-2010 Error when using a timezone behind GMT (negative offset
 -
- DP-2002 Error exporting certain CSV files
 -
- DP-1990 Dashboards not always retaining modifications to widget layouts
 -
- DP-1986 When creating a new stat in the Stat Builder, "New Stat" replaced
 - incorrect previous "New Report" terminology
- "DP-1976 Additional unwanted HTML rendered when splitting by "Agent Name
 -
- DP-1963 Remove notification warning users about imminent decommissioning of
 - legacy reporting

- DP-1924 Unable to clone LAYERED reports •
- DP-1912 Reports V2 GUI: Layering two reports as a line graph displays one data •
output as an area graph
- DP-1904 Clickable output in tables •
- DP-1863 Improvement to how different timezone intervals are handled in •
calculations
- DP-1562 Special public URL with long authcode to view dashboards of external •
devices

:API

- DP-1973 API v2: Add an is_disabled parameter for PUT to enable/disable users •
accounts
- DP-1932 API V2: Add a date_created parameter POST /api/v2/tickets •
