# DeskPRO Build #209 Released

[Deskpro Releases](#) - تعليقات (٠) - Chris Padfield - 2012-12-20

We are pleased to announce a new release of the DeskPRO helpdesk platform, build #209.

The following is an automatically generated list of changes in this release:

- Add another config option to log info about mail to json file
- Only log queries that are run if the query log/slow page log is enabled.
- Fix typo in varname

If you are using the cloud version of DeskPRO, your account will have already been updated or will be updated within the next 24-48 hours.

If you are using DeskPRO download, you can update your installation from the admin interface.
