DeskPRO Build #212 Released

Deskpro Releases - (٠) تعليقات - Chris Padfield - 2012-12-27

We are pleased to announce a new release of the DeskPRO helpdesk platform, build #212.

The following is an automatically generated list of changes in this release:

• Ensure that the age of the last message query uses the most efficient index
• Make sure the upgrade utility supports a port in the MySQL host name.
• Fix feedback section not reloading correctly.

If you are using the cloud version of DeskPRO, your account will have already been updated or will be updated within the next 24-48 hours.

If you are using DeskPRO download, you can update your installation from the admin interface.
