

## DeskPRO Build #69 Released

Release Announcements - (·) Christopher Padfield - Comments - 2012-07-25

.We are pleased to announce a new release of the DeskPRO helpdesk platform, build #69

:The following is an automatically generated list of changes in this release

- Offline message takes precedence over not-built error. Fixes error screen in user •  
interface while new files are being moved into place
- Userchat phrases are raw •
- Fix setters on Stat •
- Fix html phrases •
- Update JS phrase util to auto-escape for consistency with PHP one. Update uses in •  
.chat to use raw, as those locations already handle escaping
- Fix viewing error log item always showing first log •
- on invalid usersources 404 •
- Add getIdFromCode self-contained in SessionEntityStorage •
