DeskPRO for iPhone and Android

This initial version of the DeskPRO app includes:

- Access your ticket filters to get lists of tickets
- View individual tickets, to see the ticket messages, notes, and properties
 - Reply to tickets
- Change ticket properties like department, status, or agent
 - Ticket notifications shows you real time ticket updates
 - View inline images and download ticket attachments

?Is there any way you could add a search to this

R Roshan

منذ 11 سنة

? Is there a newer version that will be released

S Sanjay
