## New Chat Widget colors available

[Product](#) - [تعليقات \(٠\)](#) - Zara Marchesi - 2017-05-30

!You can now set colors for the Chat Widget itself, allowing you to customize this feature even more

### ?How do I set the color

!Simply go into Admin > Chat > Site Widget & Chat, and customize your colors

The screenshot displays the 'Site Widget & Chat' configuration page. On the left, the 'Button settings' section is active, showing options for Label, Size, and Colors. The 'Colors' section is expanded, showing a color picker for the background color, currently set to #e60300. A black arrow points from the color picker to the chat widget preview on the right. The preview shows a chat window with a Google search bar, a sample question, and a sample answer. At the bottom of the preview, there are buttons for 'Discard changes', 'Save', and 'Reset to default'.
