The screenshot displays the 'Site Widget & Chat' configuration page in the Deskpro Admin interface. The 'Button settings' section is active, showing options for Label, Size, and Colors. The 'Colors' section is highlighted with a red box, and a color picker is open, showing a color selection interface. A black arrow points from the color picker to the chat widget preview on the right, which shows a Google search bar and a chat window. The chat window has a blue header and a white body, matching the color selected in the picker.
