

## New Feature: Even Better Automation

[Product](#) - [تعليقات \(0\)](#) - Ben Henley - 2014-10-02

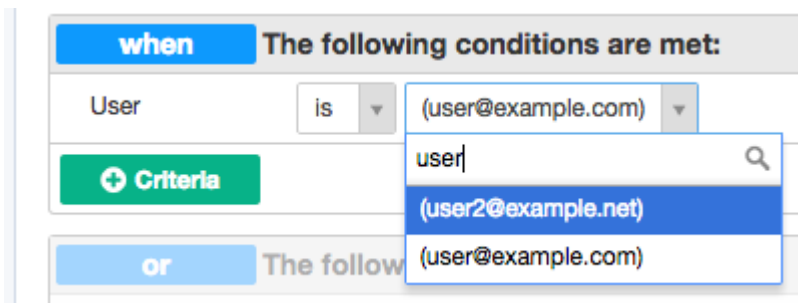

Now your triggers and other automatic rules can be smarter. We've expanded DeskPRO's powerful, flexible automation system with even more criteria and actions.

### New criteria you can check

**During Working Hours:** either the default hours set for your helpdesk, or custom hours just for that trigger. Need a trigger that only runs on weekends, or on Monday morning before your first coffee break? Now you can do it.

**User is/is not:** now you can check if a ticket belongs to your best (or worst) customer, and have your helpdesk treat it accordingly.

**Organization is/is not:** you can check for a specific user organization, too.

**when** The following conditions are met:

Organization is [dropdown]

**+ Criteria**

**or** The following conditions are met:

**+ Criteria**

Search results for 'a':

- A1
- Aardvark
- Acme

**Check API Key:** if you're using the [DeskPRO API](#) to let external software integrate with your helpdesk, you can use this to check if an event was carried out by the API on behalf of an agent, or by the actual agent. Finally, an .end to robots masquerading as humans

**or** The following conditions are met:

Check API key is Super User | Intranet link

**+ Criteria**

**.Check Performer Email:** check the email address of the agent/user who caused a trigger event

**or** The following conditions are met:

Check Performer Email contains example.com

**+ Criteria**

**Ticket Satisfaction:** treat a ticket differently depending on the user's satisfaction score. (You'll need to have (.the ticket satisfaction survey enabled to use this

**Criteria ?**

**when** The following conditions are met:

Ticket Satisfaction is Negative

**+ Criteria**

**or** The following conditions are met:

**+ Criteria**

Search results for 'Negative':

- Negative
- Neutral
- Positive

## New actions you can run

**Create Task:** assign agents tasks using the DeskPRO **Tasks** app (read [more about this](#) and other tasks

.(improvements

then		The following actions will run:	
Create Task	Task Title:	<input type="text" value="Create new ID card"/>	
	Due Date:	<input type="text" value="02 October 2014"/>	
	Public:	<input checked="" type="checkbox"/> Yes	
	Creator:	<input type="text" value="Current Agent"/>	
	Assignee:	<input type="text" value="1st Level Support"/>	
<input type="button" value="Action"/>			

.Add Agent Note: you can now automatically add an internal agent note to a ticket

then		The following actions will run:	
Author:	<input checked="" type="checkbox"/> Use the assigned agent if there is one ?		
	<input checked="" type="radio"/> Amelie Gent		
	<input type="radio"/> Si Ales		
		<div><input type="button" value="Code"/> <input type="button" value="List"/> <input type="button" value="Bold"/> <input type="button" value="Italic"/> <input type="button" value="Text"/> <input type="button" value="Link"/> <input type="button" value="Image"/></div> <div>This ticket was checked by QA</div>	
<input type="button" value="Action"/>			

**Send Email to a specific email address:** now you can send an email to any address you like, without creating a helpdesk user. If you want to email an automated service, like email-to-Evernote or an email-to-fax gateway, this is the way to do it. You can send to a list of addresses, too

then		The following actions will run:	
	Email Address to Send to (separate multiple with commas):	<input type="text" value="5553883938@email-to-text.€"/>	
	Template:	<input type="text" value="New ticket requires validation"/>	

## Other improvements

.Actions can now send **custom email headers:** email headers can affect how mail software processes messages

Send Email

From Email:

The account set on the ticket ▼

Headers:

X-Custom-Header :

deskpro

Add header

.Set Agent Followers can now add the current agent

then	The following actions will run:
Set Agent Followers	× Current Agent

If you're new to DeskPRO automation and you want to learn all about the power of triggers, escalations, SLAs, macros and round robins, check out the admin manual section on [Automating the Helpdesk](#)
