New Feature: This Season's Designer Labels

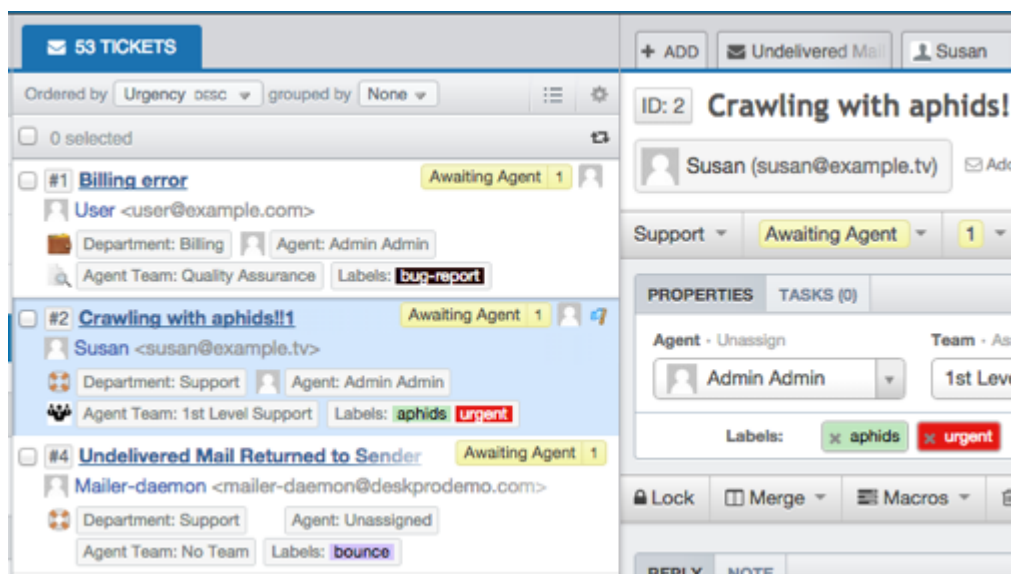

[Product](#) - (0) [تعليقات](#) - Ben Henley - 2014-10-02

.We know that a lot of helpdesks use labels as a key part of their workflow

.Now there's a new way to get even more out of labels: color

Replace uniform gray labels with your own custom colors, and your agents instantly get more information at a glance

You can pick from one of 16 predefined colors, or get the precise shade you like by entering a [hex color value](#). (we hope 16,777,216 possible colors are enough)

.(To set this up, go to the **Labels** section for each type of content (e.g. **Admin** > **Tickets** > **Labels**)
