DeskPRO Build #190 Released

2012-11-27 - Chris Padfield - Коментари (0) - Release Announcements

We are pleased to announce a new release of the DeskPRO helpdesk platform, build #190.

The following is an automatically generated list of changes in this release:

- Add some cleanup to logs, and re-create cron log table to reclaim disk
- Fix truncating error log length
- Offline use smaller avatars

If you are using the cloud version of DeskPRO, your account will have already been updated or will be updated within the next 24-48 hours.

If you are using DeskPRO download, you can update your installation from the admin interface.
