We have released version 2023.0.2 of Deskpro. This post summarizes the updates we have made to our legacy product.

Improvements

⬜ For customers using DB Blobs we increased security by requiring inline blobs to provide auth.

⬜ Improved the dangling-blobs command to fix error and add more places where blobs are referred to (SC 50825).

⬜ Improved handling of email templates, when upgrading from the legacy email templates feature (SC 115479).
