

New Chat Widget colors available

2017-05-30 - Zara Marchesi - Comments (0) - Product

You can now set colors for the Chat Widget itself, allowing you to customize this feature even more!

How do I set the color?

Simply go into Admin > Chat > Site Widget & Chat, and customize your colors!

The screenshot displays the 'Site Widget & Chat' configuration interface. On the left, the 'Button settings' panel is expanded, showing options for 'Label' (set to 'Click for help'), 'Size' (set to 'Medium'), and 'Colors'. The 'Colors' section includes a 'Background color' color picker with a hex code of #e60300. A black arrow points from this color picker to the 'Sample answer' button in the chat widget preview on the right. The preview shows a chat window with a 'Google UK' logo, a 'Flexforce' header, and a chat history including 'Chat started', 'Chat assigned to Andrew James', and 'Sample question'. The chat input area contains 'Type your message here' and a 'Send' button. At the bottom of the preview, there are buttons for 'Discard changes', 'Save', and 'Reset to default'.
