Optimize Chat Support with Deskpro's AI Chatbot

2024-11-08 - Lara Proud - Sylwadau (0) - Product (Admin)

The latest enhancement to your customer support toolkit: Deskpro's Al Chatbot. This addition uses Deskpro's Al suite developments to transform how customers interact with your chat.

The AI Chatbot can understand customer questions accurately, search your Help Center for information, and provide clear conversational responses. It's always available to assist users, making customer service more efficient and consistent.

	request time off or a
vacation o	day?
Name* Al Bot Response	You · 4m ag
	cation day, submit a
Al Data Source* request through	n our <u>online portal</u> .
FAQs	into your account and
Help Center Content Found	Thine off tab.
	the request form with vish to take off.
Message* Did that resolve	e your query?
Did that resolve your query?	No, get more help
Options* Manny - Just now	
Yes, that helped
