

## Deskpro 2018.1 Release

2018-05-21 - Benedict Sycamore - Sylwadau (0) - Release Announcements

We're delighted to announce the release of Deskpro 2018.1

Deskpro 2018.1 includes the product updates, new features, bug fixes, and additional company updates listed below:

### New Release Numbering

We've changed how we number Deskpro versions and release announcements. You can read more about why and what that means [here](#).

### SSL Available as Standard

We've enabled SSL for all cloud customers. Find out more about that [here](#).

### New Reports

We've completely updated Deskpro Reports with new features, functionality, interface and more. You can read [this post](#) to discover everything you need to know about new reports.

### Multibrand Update

We've made a number of significant changes and improvements to the way multibrand works in Deskpro. Check them out [here](#).

### Improvements
