Deskpro 2018.3.4 Release

2018-12-11 - Colin Dunn - Sylwadau (0) - Release Announcements

We're delighted to announce the release of **Deskpro 2018.3.4**

This new version contains a few small patches to address some previous software bugs. We recommend applying this to your helpdesk as soon as possible.

- DP-2774 - Some inline attachments (e.g. copy and pasted) into rich text editors may not be detected properly, resulting them being marked as temporary.
- DP-2784 - Merging a ticket may cause a 500 error if it contained certain types of custom fields
