DeskPRO Build #166 Released

2012-10-31 - Chris Padfield - Sylwadau (0) - Release Announcements

We are pleased to announce a new release of the DeskPRO helpdesk platform, build #166.

The following is an automatically generated list of changes in this release:

- Fix trigger setting department id setting wrong id
- Allow person and organization activity streams to be available via the API.
- Allow management of secondary email addresses via the API.
- Support getting, setting, and deleting person and organization pictures via the API.
- Add ticket billing charge management to the API.

If you are using the cloud version of DeskPRO, your account will have already been updated or will be updated within the next 24-48 hours.

If you are using DeskPRO download, you can update your installation from the admin interface.
