DeskPRO Build #364 Released

2014-09-04 - Chris Padfield - Sylwadau (0) - Release Announcements

We are pleased to announce a new release of the DeskPRO helpdesk platform, build #364.

The following is an automatically generated list of changes in this release:

- FIX Search error with some types of text search queries
- FIX Merging two people would not save other email addresses on the new merged person
- FIX Fadeout placement with massactions on tickets and KB
- FIX Tabs would always open on the end rather than next to the one you were on
- FIX Closing an active tab would focus the last tab rather than the next one
- FIX Highlighting of rows and tabs when using the ticket merge menu

This update has now been rolled out to all Cloud customers.

If you are using DeskPRO Download, you can update your installation from the admin interface.
