Allow Week to Start on Monday Collecting Feedback

- Q Quentin
- **Navn på forum:** #Feature Request

What defines the « first day of the week” in all the date pickers throughout the DeskPRO software, please?
I'd like for the option to change this to Monday, not Sunday.

Would it be possible to select the first day of the week when selecting "Last Week"? This would allow us to produce reporting based on different shift rotation.

Yeah, that's a typical UK/US thing. The rest of the world sees monday as start of the week.
