Create a Joomla login bridge Finished

I'd love to see a Joomla unified login plugin created so that companies using Joomla with a user login can tie it to the DeskPro system. I know there's one available for a competing help desk product as a paid addition. <br /><br /> <br /><br /> It might be smart to do one for Joomla, Wordpress and Drupal and then offer it either for free (yeah!) or as an additional, one time purchase.

This has been completed and is now part of DeskPRO #284.
