When creating a variable in the reporting interface, and if there are a lot of options, the list goes by ID number rather than alphabetical etc.

The screenshot shows a web interface for creating a variable in the reporting interface. The main heading is "org drop down test Schoen Ltd". Below this, there is a "Display" section with a "Table" button. To the right of the "Display" section is a dropdown menu with a list of company names. The list is as follows:

Company Name
Cremin, Corkery and Yundt
Kilback-Connelly
Morar, McCullough and O'Hara
Kuhlman, Schinner and Hills
Treutel Group
Skiles, Ebert and Kunze
Iced Caps
Ondricka and Sons
Considine-Wehner
Ruecker, Paucek and Runte
Littel, Hegmann and Huels
Schoen Ltd
Predovic-Nikolaus
Gargantuan Space Travel
Metz, Hammes and Mante
Quitzon-Cremin
Johnson-Lang
Rowe-Spencer

Below the dropdown menu, there is a "Download as CSV" button. To the left of the dropdown menu, there is a "Sla Status" section with a "fail" button. Below the "Sla Status" section, there is a "warning" button. At the bottom of the interface, there is a "Reset order" button and a "Showing 1" label.

We would like to be able to choose to have the dropdown in alphabetical order.
