Can I pay you to add a feature to Deskpro?

Ben Henley - 2023-08-10 - Kommentarer (0) - Payment & Renewals

Yes, we will consider custom development work to tailor Deskpro to your needs. This can be anything from adding a widget to tweak the agent interface, developing integration with another piece of software you use, to sponsoring faster development of a feature that is already on our roadmap.

We will provide you with a fixed quote based on the scope of work.

Learn more on our Consultancy page or reach out to sales@deskpro.com for more details.
