

## How do I automatically increase ticket urgency on tickets from organization managers?

Ben Henley - 2023-08-31 - Kommentarer (0) - Deskpro Legacy

If your agents are using the CRM app to record which users are managers of their organizations, you could use this information to increase the urgency of managers' tickets:

The screenshot shows the configuration interface for a trigger in Deskpro Legacy. It is divided into three main sections: Title, Event, and Criteria/Actions.

**Title \***  
RHIP  
This title will be used throughout the admin interface to refer to this trigger.

**Event**  
When a new ticket is created  
By a user (checked) By an agent (checked)  
- via the web (checked) - via the agent interface (checked)  
- via email (checked) - via email (checked)  
- via the API (checked) - via the API (checked)

**Criteria**  
**when** The following conditions are met:  
Is manager of organization  
**Criteria**  
**or** The following conditions are met:  
Usergroup is VIPs  
**Criteria**

**Actions**  
**then** The followings actions will run:  
Set Priority Urgent  
Set Urgency Increase urgency by 5  
**Action**

**Save**

Note that the trigger makes the ticket more urgent if the user is a manager, or belongs to the VIPs usergroup. It increases the urgency by 5, up to a maximum of 10.
