How do I change the Help Center welcome message for different usergroups?

Paul Davies - 2023-08-31 - [Kommentarer \(0\)](#) - [Help Center](#)

You can edit your Help Center Templates to provide a different Welcome Message for different End-Users. e.g. create different versions for VIP Users or different messaging for your Internal Staff vs your End-Users.

To do this go to **Admin > Help Center > Help Center Design**. Scroll down to **Template Editor** and click **Open Template Editor**. Select **Portal** from the dropdown and then **welcome-box.html**.

The screenshot displays the 'Help Center Design' interface in the Vidensbase Admin console. The left sidebar contains a navigation menu with options like Overview, Configuration, Channels, Agents, Help Center, Knowledgebase, News, Files, Community, Guides, Settings, Ticket Structure, Features, Business Rules, CRM, Apps & Integrations, and Data. The main content area is titled 'Help Center Design' and includes a 'Test brand' dropdown, a color picker, and sections for 'Fonts' (Primary, Secondary, Mono-space) and 'Page Layout & Design' (Header & Footer, Home, CSS). The 'Template Editor' section at the bottom has an 'Open Template Editor' button. On the right, a preview of the 'Test' template is shown, featuring a search bar with the text 'How can we help you today?' and a 'Contact Us' form with fields for Name and Email, and a dropdown for 'What are you hoping to get in touch about?'. The user 'Paul Davies' is logged in as shown in the bottom left corner.

This is a full template where you can use all templating tags and logic. Here is an example that you can use to show different messages based on your usergroups.

```
<article class="dp-intro-box">

{% if app.user.isMemberOfUsergroup(3) %} Message for usergroup #3

{% elseif app.user.isMemberOfUsergroup(4) %} Message for usergroup #4

{% else %} Message for everyone else {% endif %}

</article>
```

You can find the usergroup IDs from **Admin > CRM > Usergroups**. By default, the ID of the Usergroup is shown in the right-hand column.

 **Usergroups**

Belonging to a usergroup determines the actions a user can perform and what Help Center content they can see.
