Setting Up Azure OpenAI for Deskpro

Lara Proud - 2025-03-26 - [Kommentarer \(0\)](#) - [AI](#)

Step 1: Set Up Azure OpenAI Service

1. Access Services: Visit the Azure All Services page.
2. Create Service: Select and create a new Azure OpenAI service.

3. Configure Basics: In the Basics tab, fill in the required fields and choose a name for your service.

Get access to Vision, Language, Search, and Speech Azure AI services with a single API key. Quickly connect services together to achieve more insights into your content and easily integrate with other services like Azure Search.

Step 2: Deploy Models

1. Access Overview: Once the instance is created, navigate to the Overview section.

2. Go to AI Foundry: Click on "Go to Azure AI Foundry Portal."

The screenshot shows the Azure AI Foundry portal interface. On the left is a navigation menu with a search bar and several options: Overview (selected), Activity log, Access control (IAM), Tags, Diagnose and solve problems, Resource Management (expanded), Keys and Endpoint, Encryption, Pricing tier, Networking, Identity, and Cost analysis. The main content area features a red-bordered button labeled "Go to Azure AI Foundry portal" with a trash icon and the word "Delete" next to it. Below this is a section titled "Essentials" containing the following details: Resource group (move) : Test, Status : Active, Location : East US, Subscription (move) : Azure subscription 1, Subscription ID : , and Tags (edit) : Add tags. At the bottom, there are three tabs: "Get Started" (underlined), "Develop", and "Monitor".

3. Deploy Models: Under the Shared Resources menu, select Deployments.

4. Choose Models: Deploy the following models:

- gpt-4o-mini
- text-embedding-3-small

Name	Model name	Model version	State	Model retirement date
gpt-4o-mini	gpt-4o-mini	2024-07-18	Succeeded	Jul 20, 2025 2:00 AM
text-embedding-3-small	text-embedding-3-small	1	Succeeded	Oct 3, 2025 2:00 AM

Step 3: Configure Deskpro

1. **Access Home Menu:** After deploying the models, go to the Home menu at the top left to find your settings.
2. **Copy Settings:** Retrieve the API key, endpoint, and location.
3. **Connect with Deskpro:** Enter these details into the Deskpro Admin Settings to connect your Azure OpenAI.

Welcome to Azure OpenAI Service

Explore the generative AI models and craft unique prompts for your use cases.
