## New Chat Widget colors available

2017-05-30 - Zara Marchesi - [Kommentarer \(0\)](#) - [Product](#)

You can now set colors for the Chat Widget itself, allowing you to customize this feature even more!

### How do I set the color?

Simply go into Admin > Chat > Site Widget & Chat, and customize your colors!

The screenshot displays the 'Site Widget & Chat' configuration interface. On the left, the 'Button settings' panel is active, showing options for Label, Size, and Colors. The 'Colors' section is expanded, showing a color picker for the 'Background color' with the hex code #e60300. A black arrow points from this color picker to the 'Sample answer' button in the chat widget preview on the right. The preview shows a chat window with a Google logo, a search bar, and a list of messages. At the bottom of the preview, there are buttons for 'Discard changes', 'Save', and 'Reset to default'.
