

## New Chat Widget colors available

2017-05-30 - Zara Marchesi - Kommentarer (0) - Product

You can now set colors for the Chat Widget itself, allowing you to customize this feature even more!

### How do I set the color?

Simply go into Admin > Chat > Site Widget & Chat, and customize your colors!

The screenshot displays the 'Site Widget & Chat' configuration interface. On the left, the 'Button settings' panel is visible, featuring a 'Label' field with the text 'Click for help', a 'Size' selector with 'Medium' selected, and a 'Colors' section. The 'Background color' is currently set to '#e60300'. A color picker is open, showing a color spectrum and the selected color. A black arrow points from the color picker to the 'Sample answer' button in the chat widget preview on the right. The preview shows a chat window with the Google logo, a 'Flexforce' header, and a chat history including 'Chat started', 'Chat assigned to Andrew James', and 'Sample question'. The 'Sample answer' button is highlighted, and a red 'Click for help' button is visible at the bottom right of the preview. At the bottom of the settings panel, there are 'Discard changes', 'Save', and 'Reset to default' buttons.
