On-Premise Controller Release 2.24.0

2025-03-26 - James Godwin - Kommentarer (0) - OPC Releases

This update enhances the reliability and customization of your On-Premise environment by making handling custom root certificates easier.

New Feature
Add functionality to add custom root certificates to the OPC via the web interface and target the host or instances individually

Latest Improvements
 Add Apache Tika as a templated addon for easy deployment

Bug Fixes
 Ensure Redis connectivity problems are cleared once resolved

 Ensure the 'X' icon closes the modal in all cases in the web interface
