Deskpro

Support for 3CX voice system Collecting Feedback

- MW Michael W.
- **Forenname:** #Feature Request

Any change for an integration of the 3CX phone systems? They already offer integrations für Zendesk, Freshdesk and Salesforce to create tickets für Answered/Unanswered calls (inbound and outbound). For example: https://www.3cx.com/docs/zendesk-crm-integration/

This is a big one for me, our company has just moved to 3CX but also wanting to get away from Zendesk. If this happens, choosing Deskpro will be a no brainer.
