

Deskpro Mobile App

Lara Proud - 2023-08-24 - Kommentare (0) - General

Deskpro's Mobile App is available on both iOS and Android.

The app lets Agents view, manage and reply to tickets in real-time and on the go, which links directly to your helpdesk.

Download the Deskpro app:

[App Store](#) | [Google Play Store](#)

In addition, Users on mobile devices can submit tickets via email or by using the simple ticket form on your Help Center. You can also embed our ticket submission form into a mobile-optimized website.
